We appreciate your interest in our graduates and we would like to support your company’s search for suitable candidates. As we are a public institution we are not allowed to give any advantages in monetary values to companies, which is why we have to bill an expense allowance. For this case, we have listed all our services and the according amount of expense allowance. Thank you for your appreciation!

--- Placing job advertisement ---

For placing job advertisements at RWTH Aachen University you can select between two choices. On the one hand, we can place your advertisement on our black boards which are distributed over our campus. On the other hand, there is the possibility to announce your job offers online in our job market. The advantage of our job market is that a wider circle of potential candidates can see your announcement. Besides the online-announcement, we can also send your job advertisement to the consistent faculties and student bodies. For this service (21 days online set-up and forwarding) we bill 100€ per advertisement. If you want to announce several advertisements at the same time, we can offer you a discount, i.e. 200€ for 3 advertisements, or 5 advertisements for 300€.

--- Presenting your company ---

The Career Center offers a large agenda for our students every semester. A part of this agenda is the series ‘Working with…’. In this series, companies get the chance to present themselves to students. For this, the Career Center delivers the infrastructure, such as a room for up to 140 people, beamer and screen. Promotion for the events is carried out with a short portrait of the company in our regular semester-program and on our online agenda-portal (http://www.rwth-aachen.de/go/id/irp/).

Conditions for an entry in our semester-program is a definitive, written agreement before our semester-program is printed (six weeks before the semester starts). Additionally, all students of the respective faculties are invited one week prior to this event.

At the end of the event we offer you the possibility to invite all the students to a ‘get together’. Note, that the catering has to be paid/ordered by you, but we offer support in finding a caterer.

‘Working with…’ takes place on Thursdays from 6.00-8.00 pm.

For your companies presentation in this series, we bill room-rent and infrastructure with 400€.

--- Joining our seminar program ---

To prepare our students for application processes and job entry in a maximum way, we offer a lot of seminars to several topics in line with our agenda. The spectra of these seminars comprises job application training, strength-weakness analysis, time management, financial planning, etc. To enhance this program and the belonging offers, we rely on the support of companies. A cooperation with our seminar program can be carried out by hosting a training or to by financing a trainer who is assigned by the Career Center. Both forms of support require a concrete agreement of the Career Center about the topics and with the trainers. The offer has to agree with the Career Center’s standards and has to deal with topics which complement our program in a meaningful way.

The companies engagement is mentioned in our program with the sentence ‘This seminar is supported by: your company’s logo’ . The same is done in our online agenda-portal, but without the logo. Here we can only mention the name of your company.
Graduate’s fair

The Career Center supports the student’s initiative ‘bonding’ in its organization of the annual graduate’s fair ‘bonding’, taking place every December. Since years, this fair is a successfully established platform. Get more concrete information about prices and organizational details directly from the bonding-team via e-mail: aachen@bonding.de. For more information about the fair, visit www.bonding.de/aachen. We offer support to get you connected with bonding.

Placing advertisement in student’s magazine ‘relatif’

This Campus-Magazine is printed by a student initiative of the RWTH Aachen University. The magazine is edited twice each semester and its target group is first and foremost students of the RWTH Aachen University, but students of all the other universities of Aachen as well. The circulation is 4000 for each edition, and every month 600 downloads of the magazine as a pdf-Document are recorded. Detailed information can be found in the appendix.

Scholarships, rewards and funding students

RWTH Aachen University builds up a collection of funds for several forms of scholarships and rewards. With this collection we want to build up a central contact-point for students searching for support and for companies that want to support special students. It is the aim to support 10% of our students with 300€ per month. For these scholarships we depend on companies who are willing to support students with 150€ monthly for a duration of at least one year. The other 150€ will be paid by the government of North Rhine-Westphalia.

Besides doubling the scholarships’ amount we offer the participating companies the possibility to take place in the scholarship fair and to appear in the accompanying brochure. At an adequate amount, we offer to name the scholarship after the companies name. There is the possibility for an integration of your already existing scholarships in this collection of funds as well.

Funding the best

Besides supporting the all students we are building up a program, which concentrates on the support of the best 3% of students each year. This support program includes a systematic advancement in social and soft skills, and study and guiding techniques. The ending of this program is celebrated with a festive Deans’ dinner at which the students, excellent researchers and agents of RWTH Aachen University, as well as high representatives from companies come together.

We named this program Deans’ List and are looking for companies willing to cooperate and to support us. If you want to invest in the best and want to take part at the dinner, do not hesitate do contact us!

Long-term cooperation

Besides the possibility to contact our graduates directly, experience shows that it is helpful to place yourself visibly and long-termed at RWTH Aachen University. For that purpose, we offer a lot of possibilities in fundraising and sponsoring our university sports. Furthermore, we are happy to support you in every question of cooperation in research, and we will connect you with the right contact person.

If you want to enhance your engagement, we will put you on our distribution frame in order to inform you of news.

If you have any questions left or want to realize own ideas with us, of course I am at your disposal.

Kind regards Anja Robert
