CAREERBUILDING
for Female Students in STEM

Application Deadline: 15. November 2015

Additional Information about the programme and selection procedures

www.femtec.org
Would you like to share your enthusiasm for STEM with like-minded women?
Would you like to meet female role models?
Would you like to develop your soft skills and feel more self-assured?
Would you like to actively design and plan your new career?

What will the Careerbuilding Programme offer you?

Training Courses, Workshops, Presentations
In the Femtec Schools, you will develop your soft skills in several different formats, e.g. improving teamwork and communication skills. You will learn how companies operate, as well as different styles of leadership. In the innovation workshop, you will work on specific issues concerning corporate practices facing our partners companies.

Excursions and personal contact to companies
You get in contact with HR managers, engineering specialists and executive managers and discuss your chances and the requirements for a future job. On excursions you will get to know our partner companies. Internships in Germany as well as abroad or writing your master thesis in one of these companies will help you starting your career.

Personalised Career Advice
Femtec’s advisers offer support when applying for an internship, in setting career and personal goals, during the job application process, and during the early days of a new job by providing you with advice and coaching.

Network
At Femtec, you will meet young female technophiles within a network of over 800 participants and alumnae. Every year, approximately 100 students are added. Furthermore, more than 300 former participants are actively involved in the Femtec.Alumnae e.V.

Femtec GmbH offers a Careerbuilding Programme for young women in STEM, where exciting employers, challenging training courses, inspiring discussions about career-relevant topics, and a diverse network of like-minded STEM talent await you.

The Careerbuilding Programme for female students prepares you for real work situations and future leadership positions.

Femtec Career Forum
