Explore Together - International Internship Formulation Biological Activities in Tarrytown 2018

We are the world’s leading chemical company because we offer intelligent solutions for our customers and for a sustainable future. We connect and develop people with diverse talents all over the world. For you, this means a variety of ways to advance. Not only your performance but also your personality matter to us, without regard to gender, age, origin, sexual orientation, disability or belief. At BASF, careers develop from opportunities.

What you can expect
During this 3-6 month internship, starting in early 2018, you will support the work of our Formulation Research Platform department in Tarrytown, USA in developing formulation for improved stability, applicability and performance of biological activity.
- You will grow bacteria, quantify bacterial growth and increase the survivability of formulated bacteria.
- You will encapsulate bacteria.
- You will work with temperature and chemically sensitive proteins to improve storage stability.
- Furthermore, you will apply methods to predict long term stability of biological activity.
- You have the chance to participate in cultural activities together with your new colleagues.

What we expect
- You are in an advanced stage of your studies of chemistry, biology or in a related field at a European University.
- You are known for your great study results and your extra-curricular commitment.
- Your English language skills are very good and you have already had the chance to gather practical experience in the industry as well as abroad.
- If you are also an innovative, team-oriented person with high interest in the sustainable research of BASF, you could be the perfect candidate for our internship program in Tarrytown!
- Please apply with your full set of documents: Letter of motivation in English, containing specifications regarding timescale and duration. Furthermore your CV in English as well as all relevant certificates and references in original language.

We offer
The Human Resources department in Ludwigshafen will help you with organizing flights and visa in advance of your trip. In addition to an internship salary you will receive an attractive benefits package including reimbursement of your flight and visa expenses. Networking events in Ludwigshafen will introduce you to BASF headquarters and provide an opportunity to connect with BASF employees and fellow
participants. Furthermore, you will become a member of our European Talent Pool. For further information please visit our website www.basf.com/career/exploretogether
