Questions left?
The Information Center of the University Library will gladly answer all your questions about using the University Library and searching for literature.
Audio Guide

The University Library can be explored independently with our audio guide. Find out about our services and where you can find our media. To get to know the most important areas of the library on the tour with 14 stations, scan the orange QR Codes for the English version of the audio guide. 11 stations are in the Main Library, in addition there are two more stations in the Library 2 and one more station in the Medical Library.

The red marking points in the overviews show you, where the QR Codes can be found.
