Welcome to our Group Advising Session!

RWTHworldwide: Asia

Date 22.11.2022
The most important questions

- **Why** go abroad?
- **What** to do abroad?
- **What** funding opportunities exist?
- **Where** can I get information?
- **How** do I plan my stay abroad and how do I apply?
Why go abroad?

- Gain intercultural experience and think outside the box
- Acquire and deepen new language skills
- Get to know new working environments, develop new professional networks
- Acquire international qualifications, increase employability
- Promote independence, personal growth
- And not to forget: having fun and discovering new perspectives on life and the world
Why go abroad?
Why Asia?

• Dynamic, rapidly growing economic and research region
• Very well developed network of RWTH cooperations for study and research stays
• Diverse and exciting countries and cultures
• A stay abroad in Asia is an asset for your career start
Why go abroad? Why Korea?

Study in an exciting high-tech location

- GDP projection 2018: USD 30,000, semiconductor production +26.1%
- Very education and research friendly location: Education spending 5.8% / GDP, R&D: 4.2%
- Competition from China: innovation-driven transformation of economy and science: Industry 4.0, digitalization, IoT, renewable energies, autonomous driving, creative industries
- Accelerated expansion of basic research: IBS
  - Daejeon: "International Science Business Belt": 19 universities, 30/400 research centers, IBS, Heavy ion accelerator project "RAON" (2021)
- Reuters: 8 Korean unis among the most innovative Top 100, KAIST on rank 6THE: SNU, SKKU, KAIST (102)
- Often waiving of high tuition fees, partly very good study conditions
What to do abroad?

Forms of stay abroad

- Summer & Winter-Schools
- International Internships & Research Stays
- Semester/year abroad
What to do abroad?
Summer & Winter Schools in Japan

- Courses on language and regional studies or specialized courses
- Period: approx. 2 - 8 weeks
- Commercial offers from partner universities
- Partially high study fees (also at partner universities)
- Hardly any recognition of credits possible
- Often take place from June to August & February to March
- See the complete overview: Summer Schools und Winter Schools

Examples:
- SERP Summer Exchange Research Program der Tokyo Tech
- Tokyo Tech Summer Program
- Engineering Summer Education Program, School of Engineering, UTokyo
- Kyoto University Amgen Scholars Program
What to do abroad?
Summer & Winter Schools in Korea

- Courses on language and regional studies or specialized courses
- Period: approx. 2 - 8 weeks
- Commercial offers from partner universities
- Partially high study fees (also at partner universities)
- Hardly any recognition of credits possible
- Often take place from June to August & February to March
- See the complete overview: Summer Schools und Winter Schools

Examples:
- KAIST International Summer School
  Seoul National University International Summer Institute
- Winter Abroad at Yonsei (WAY)
What to do abroad? Summer & Winter Schools in cooperation with India

IGCS Summer School 2023 on „The Integration of Renewable Energies into a Power Grid – A Key Contribution towards a Carbon Neutral Society“

Short Summary

What? IGCS Summer School, July 24th – August 4th, 2023, physical event at Technical University Berlin, Germany;

Contents: This year IGCS Summer School focuses on the technical aspects of integrating different renewable energy sources into the existing power grid as an innovative and potential solution towards a sustainable and clean energy future;

Target group: Graduate and PhD students from both Indian and German institutions;

Funding: Scholarships for mobility and stay will be given to selected participants from Indian universities. Selected participants from German universities will be reimbursed for their travels. Accommodation will be provided by the IGCS;

Application deadline: May 1st 2023, 07:00 pm CET; 2023 Application form.

Bundesagentur für Arbeit
Zentrale Auslands- und Fachvermittlung (ZAV)
What to do abroad?
International internships

Subject- and country-specific placement

- **IAESTE** (International Association for the Exchange of Students for Technical Experience)
  - International, non-political, independent organization for the placement of international internships

- **AIESEC** (Association Internationale des Etudiants en Sciences Economiques et Commerciales)
  - AIESEC is the world's largest youth-led organization
  - Internships abroad from 6 weeks
What to do abroad?
Research Stays

Research Stays at Japanese Partner Universities

- SERP: Summer Exchange Research Program
- Nara Institute of Science and Technology - NAIST
- Japan Aerospace Exploration Agency - JAXA
- The University of Tokyo Summer Internship Program in Kashiwa - UTSIP Kashiwa
- Tokyo Tech Summer Program B
What to do abroad?
Research Stays

Research Stays at Korean Partner Universities

- KAIST Visiting Student Researcher (VSR) Program
- Research stays are generally possible at all partner universities in Korea
What to do abroad?

Exchange

**ERASMUS**
- Partnership selected by the faculty according to study program offered by the partner university.
- Counseling, application, selection, nomination and recognition of ECTS in **faculty**
- Awarding of the Erasmus scholarship by **IO**

**Worldwide**

**University-wide Partnerships**
- Partnership selected by International Office according to study program offered by the partner university.
- Open to students of all faculties: Study program does not fit all faculties
- Counseling, application, selection and nomination by **IO**
- Recognition by your **faculty**

**Faculty-wide Partnerships**
- Partnership selected by faculty according to specific areas/focus
- Only for students of corresponding faculty
- Counseling, selection and recognition by **faculty**

Alternative: **Freemover Outgoing**
What to do abroad? Exchange

Free Mover

- Independent organization, planning, study fees
- Application for PROMOS possible as Free Mover

What to do abroad?
DAAD Scholarship Program „Sprache und Praxis in Japan“

The program aims at offering German graduates the opportunity to participate in a language and practice-oriented programme in Japan. The scholarship holders are given the opportunity to learn the Japanese language from scratch and to experience the culture and economy of the country first-hand.

Duration of the scholarship
• usually for a period of about 16 months:
  • If applicable, 2 weeks preparatory courses at LSI Bochum.
  • 10 months language course in Japan: Beginning of October to end of June
  • 6 months internship in Japan: Beginning of July of the following year until the end of December

Who can apply?
Graduate students and doctoral students (at least Bachelor’s degree in the fields of computer science, natural sciences, engineering, law, political science, economics, social sciences or architecture.)

Application deadline: 31. January

Further information here.

How do I plan?
Preparation for the stay abroad

Timing

• Plan early → calculate at least 1 year

• Pay attention to application deadlines
RWTHworldwide Deadlines:
  – **November 7 to 21 2022**: for one- and two-semester study abroad programs beginning in the following winter semester
  – **12th June 2023**: for one semester study abroad programs beginning in the following summer semester

• Time and duration
  – depending on your study program/plan

• Check the academic year in the exchange country
How do I plan? Preparation for the stay abroad

• Language learning
  – Language Center of the RWTH, Adult Education Center, Language Tandems INCAS, BeBuddy

• Contacts to international students
  – Humboldt House, INCAS, AEGEE, BeBuddy

• Intercultural Training
  – Workshops offered by International Office
How do I plan?
Preparation for the stay abroad

Interested in international contacts?
Want to learn more about other cultures?
Meeting new people from all over the world?

The answer is: BeBuddy!

Train your intercultural competence!
First-hand information for your stay abroad!

BeBuddy Trailer

BeBuddy

“Be Buddy” is an informal mentoring programme initiated by the International Office of RWTH Aachen University which aims to enable newly enrolled international students to adjust to university life and living in a new city, and to meet, mix with, and learn from other RWTH students. Thus the International Office is intent on matching up each international student with an experienced RWTH student — if possible from the same faculty — who is to provide support and general information.

The BeBuddy programme is also a part of the Certificate-International initiative.

What is a Buddy?

Buddies are socially engaged RWTH student volunteers from all faculties who would like to meet international students and support them in the process of settling into university life in Aachen and adjust to their new surroundings. Buddies support their mentees by offering informal advice on practical issues and by discussing with their mentees the specifics of their degree course. As experienced students, they act as informal mentors of the newly arrived international students, who are thus also called “mentees”.

You are an RWTH Student and you Wish to Offer your Assistance as a Buddy?

For more information, e.g., on how to register as a buddy as well as benefits involved in doing this sort of voluntary work, please visit our Buddies web page.

You are a (prospective) international student (Mentee) who would like to be supported?

If so, please find more information on our Mentees web site.
How do I plan?
Preparation for the stay abroad

Certificate Mobility

- Examples: Exchange stay, language course, BeBuddy activities and many more
- Registration possible at any time

Further Information
How do I plan?
Recognition of academic achievements

Before going abroad:

1. Obtaining information independently
2. Utilizing the counseling services offered by the faculty (subject-specific study advising or international coordination)
3. Consideration of orientation lists on already examined recognitions
4. Requesting a recognition agreement from the examination board
5. Obligation to actively participate during the entire process

While abroad:

1. Ensuring that all scheduled courses are offered
2. If not, request a change of the recognition agreement
How do I plan?
Recognition of academic achievements

After going abroad:

1. Consideration of the grade conversion table of the International Office
2. No obligation to already apply for previously reviewed recognitions
3. Recommendation to apply for the desired recognitions quickly
4. Rights to review and processing within a reasonable time frame
5. Obligation to provide proof of the work performed abroad
6. Possibility to apply for recognitions that have not yet been examined
7. Recognition in the case of non-substantial differences in acquired competencies
8. Rejections must be justified by the examination board
9. Appeal against the decision is possible within four weeks

RWTHworldwide: Apply to Study Abroad

Please Note

This webpage provides you with information on the application process for exchange places managed by the RWTH International Office. If you would like to apply for an exchange place within the framework of a partnership at the faculty or institute level, please refer to the faculty or department website or get in touch with the responsible contact there. Please also use the overview of partner universities to find out about possible study abroad opportunities. To get fully informed about study abroad opportunities, we advise you to attend one of our regular group advising sessions.

Please note that not all partner universities offer places in every application round. An overview of current exchange opportunities is available under “Open Places” below.

Applications for places at partner universities in China: please note that due to the current entry restrictions to China in the summer semester 2022, it will probably only be possible to study online at the partner universities if this is offered to international exchange students (details will probably be published in February 2022).

APPLICATION DEADLINES

Application period November 7 to 21, 2022, 12pm: for a one or two-semester-long stay abroad set to begin in the winter or summer semester of the following academic year.
How do I apply?

FAQs

- How far ahead do I need to plan my stay?
- Where can I find information about semesters abroad and partner universities?
- At which partner universities can I study my course of study?
- Do I have to earn a certain number of credit points while abroad?
- Can I study abroad during my Bachelor studies?
- Can I also conduct research at the partner university?
- Where can I find experience reports?
- How can I finance my stay abroad?
- What do I do if RWTH Aachen does not have a partnership in a certain country?
- When do I need to apply?
- Can I apply for multiple universities?
- According to the application requirements, applicants must be in their third university semester or higher. Does this apply to Master’s students as well?
- How high are the chances of being accepted to the desired university?
- The periods of study or terms at my host institution differ from those at RWTH – it has trimesters and quadrimesters. Which semester do I have to name in my application?
How do I apply?

Application procedure
