Please send a cover letter stating research aims and a CV to:
Dekan der Fakultät für Wirtschaftswissenschaften der RWTH Aachen University,
Prof. Dr. Peter Letmathe,
52056 Aachen.
You can also send your application via email to dekanat-fbw@rwth-aachen.de. Please note, however, that communication via unencrypted e-mail poses a threat to confidentiality as it is potentially vulnerable to unauthorized access by third parties. For information on the collection of personal data pursuant to Articles 13 and 14 of the General Data Protection Regulation (GDPR), please visit https://www.rwth-aachen.de/gdpr-information.

The deadline for applications is April 20, 2020.
This position is also available as part-time employment per request.
We welcome applications from all suitably qualified candidates regardless of gender. RWTH Aachen University is certified as a family-friendly university and offers a dual career program for partner hiring. We particularly welcome and encourage applications from women, disabled people and ethnic minority groups, recognizing they are underrepresented across RWTH Aachen University. The principles of fair and open competition apply and appointments will be made on merit.

Junior Professor (W1, tenure track) in Decision Analysis and Socio-economic Assessment
School of Business and Economics

This is a junior professorship appointment with a tenure track career path towards a W2 professorship. The position is funded by the Tenure Track Program of the German federal and state governments. This call for applications is therefore particularly targeted at early career researchers. For further information about the tenure track process, please visit www.rwth-aachen.de/tenuretrack.

We are seeking qualified applicants for teaching and research in the area of Decision Analysis and Socio-economic Assessment. The starting date is October 1, 2020. Applicants should be experienced in the quantitative modeling and data-based analysis of socio-economic systems or markets. Applicants will also have demonstrated their ability to conduct problem-oriented, quantitative economic research at an internationally competitive level. This junior professorship is part of the DFG (German Research Foundation) cluster of excellence "The Fuel Science Center". The successful candidate will collaborate with researchers in the cluster on interdisciplinary research questions relating to the development of alternative fuels. The successful candidate will also be expected to be actively involved in the research activities of the School of Business and Economics and to engage in and contribute to interdisciplinary collaboration, which is an integral part of RWTH Aachen University’s mission as an integrated, interdisciplinary university of science and technology. The junior professorship is also part of the School’s Research Area "Energy, Mobility and Environment" and the successful candidate will be expected to connect key research topics of the School of Business and Economics and the DFG’s cluster of excellence.

We expect you to develop practice-oriented quantitative models which extend the research of the Fuel Science Center in the areas of supply chain networks, energy systems and risk perception. Relevant socio-economic issues to be addressed would be, for instance, the integration and formulation of policy frameworks, the modeling of the geo-political and global market environment, as well as the market participants’ handling of endogenous and exogeneous uncertainty.

It is the intention of the School to expand its teaching portfolio, particularly in the area of specialization "Sustainability and Corporations".

RWTH Aachen University is one of Germany’s pre-eminent Universities of Excellence, which entails the highest quality in teaching and world-class research. RWTH addresses bold, scientific questions; it also assumes a profound responsibility toward society and transfers its knowledge into meaningful applications. RWTH strives for the convergence of knowledge, methods, and findings from its research fields and integrates in-depth disciplinary knowledge into interdisciplinary research consortia represented as profile areas. The university’s dynamic, creative, and international environment encompasses efficient research networks, institutionalized cooperations, and, most of all, the innovative RWTH Campus-Project which harbors one of the most extensive technology-oriented research landscapes in Europe.
You should have a completed university degree and a special aptitude for scientific work which is generally verified by means of an outstanding doctorate. Ability in and commitment to teaching are essential. The application should include supporting documents regarding success in teaching. German is not necessary to begin but will be expected as a teaching language within 5 years.

Furthermore, an approximately 2-page description is required of your intended research profile relating to the DFG cluster of excellence, to the School of Business and Economics, as well as to the RWTH Profile Areas.
