English courses	<ul style="list-style-type: none"> ● Automotive Structures (first semester only) ● Integration of Information Systems (first semester only) ● Commercialization (first or second semester) ● Business and Internet Technology (second semester only)

Other issues

Visa	<p>Students need to apply to a VISA before arriving to Buenos Aires. Students must contact the Consular Office of the Argentine Republic in the place of residence of the foreign national as soon as they receive the Admission Letter to ITBA.</p>
Medical Insurance	<p>An Argentine national health insurance is mandatory as the National Health System does not recognize international companies with reimbursement system. All students should be covered during their entire stay at ITBA.</p>

	<p>This must include in-country coverage as well as medical evacuation and repatriation (for coverage limits, please contact the International Relations Office).</p> <p>ITBA recognizes the plan offered by the <i>William Hope</i>, which provides access to medical appointments, tests and emergencies without the need for prior approval from the insurance company, and does not have any deductibles or copayments.</p> <p>Students with pre-existing conditions that may not be covered by local insurance should contact the International Relations Office before arrival to discuss their medical needs and insurance coverage. Students who wish to purchase alternative local coverage must send the details of said coverage to the International Relations Office before arrival for its approval.</p>
<p>Housing</p>	<p>ITBA, as every university in Argentina, is an urban campus, fully integrated into the city. Buenos Aires has increasingly become a preferred destination for students from all over the world and is well equipped to welcome them by offering a wide range of accommodation facilities, for every budget and preference.</p> <p>Universities in the city do not count with their own student residences. Nevertheless, ITBA provides exchange students with a list of options, including family houses, rental flats, etc.</p>
<p>Student organizations</p>	<p>SABF, TRAMA, Conexion, SPE student chapter, IEEE student chapter, CEITBA, AEII student chapter, Bioengineering (EMB) chapter</p>

URBAN CAMPUS

1.- MADERO HISTORICAL CAMPUS

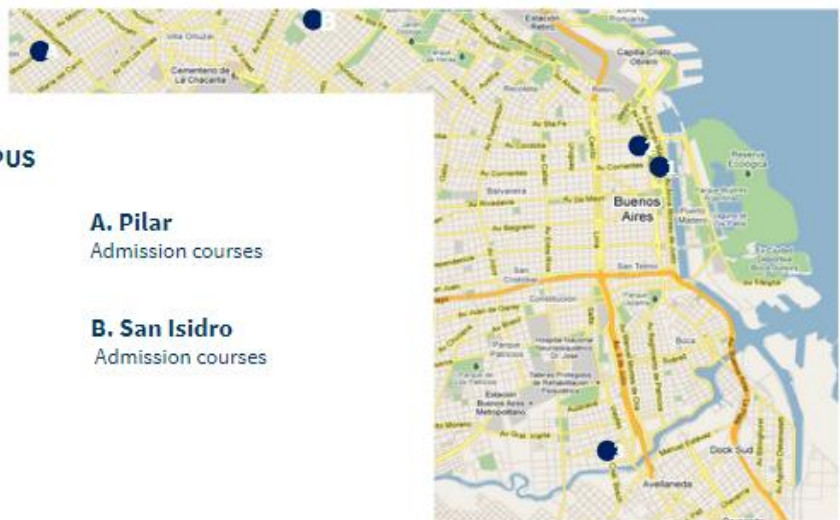

Central offices and undergraduate programs.
Research Labs

2. Technological District

Research and Development
Center for Mechanical Engineering

3. GRADUATE SCHOOL

Graduate school
