REFERENCE CODE EN59295290_ONLE_2

RESPONSIBILITIES
Become a part of our Global Development & Technical Marketing Animal Nutrition unit. We translate our customers needs and requirements into innovative products and services. We are responsible for all technical issues having to do with all aspects of our development projects and sales products.
- You will collaborate with our regulatory, marketing and technical team in many different topics as well as providing creative ideas to help achieve our goals.
- While doing intensive and in-depth scientific literature searches, you will update and prepare technical as well as marketing presentations to ensure accuracy and validity of information.
- To collect necessary data for related tasks, you will help develop and use interviews or surveys.
- Furthermore, you will support the team in their daily administrative tasks and particular projects and organize as well as structure data files.
- To enter any fast-paced work environment, this internship will provides you with technical and marketing insights.

QUALIFICATIONS
- enrolled student, ideally in animal science, veterinary medicine, biology
- ability to follow instructions and strong desire to learn along with professional drive
- capable to work independently and proactively as well as being structured and organized
- excellent verbal and written communication skills in English
- efficiency at MS Office, especially PowerPoint and Excel

BENEFITS
- From day one you will be part of the BASF family.
- You will get involved in challenging fields of activity and have the opportunity to work on exciting projects in an interdisciplinary environment.
- Depending on the location of the respective group company you will get to know BASF and participate in various workshops and guided tours.
- In this way you will make numerous interesting experiences and get a deep insight into the world’s leading chemical company.
