Postdoc - Development Pharma Solutions (m/f/d)

BASF Nutrition & Health offers a wide range of products and services for human and animal nutrition, the pharmaceuticals industry, the ethanol industry and the flavors and fragrance industry. With our innovative solutions and modern technologies, we support our customers to improve the profitability of their businesses and to offer products that contribute to sustainable development. We have sites in Europe, North America, South America and Asia-Pacific.

LOCATION Ludwigshafen, DE
COMPANY BASF SE
WORKING AREA Research & Development
WORKING HOURS Full-time
REFERENCE CODE ENS9183920_ONLE_3

RESPONSIBILITIES
Become a part of our Development Pharma Solutions unit as a postdoc for 2 years as soon as possible and take on responsible tasks within the development of a digital formulation tool.
- In this role you will develop digital concepts for pharmaceutical formulations.
- You will work on specific pharmaceutical dosage forms and translate pharmaceutical expertise into a digital system.
- In addition, you develop application-relevant test methods and test various excipients on them.
- You will also test and validate the system by testing the proposed formulations as well as manufacturing processes on a laboratory scale.

QUALIFICATIONS
- PhD in natural sciences, preferably in pharmacy or pharmaceutical process engineering
- Knowledge of pharmaceutical technology and pharmaceutical excipients
- Knowledge of pharmaceutical production processes and procedures
- Additional IT knowledge would be an advantage
- Good German language skills to ensure communication within the team and regarding safety regulations as well as English language skills, particularly in a scientific context

BENEFITS
- From day one you will be part of the BASF family.
- You will get involved in challenging fields of activity and have the opportunity to work on exciting projects in an interdisciplinary environment.
- Depending on the location of the respective group company you will get to know BASF and participate in various workshops and guided tours.
- In this way you will make numerous interesting experiences and get a deep insight into the world’s leading chemical company.
