* Participating in My Home is your Castle can be recognized as a component for Certificate International

You are studying at RWTH and are planning to spend some time abroad soon? Sublet your place to an international student!

My Home is your Castle was initiated by the International Office to make the outgoing's return easier for them after their stay abroad while also fostering contact between local and international students at the same time. How does it work? Register your available apartment or room with the International Office Housing Advice Service Team. They will pass on your offer to international students seeking for lodging. Ideally, you will find a suitable subtenant who will be studying at RWTH for exactly the period of time you will be gone.

You have the advantage that you won't have to go through apartment hunting again after your return and as an added bonus you are getting to know students from the country or university you will be staying at abroad or somewhere else in the world. In addition, you will be helping students who have a hard time finding a place to live, especially at the beginning of their studies.

For more information about the recognition of your participation in My Home is your Castle in the Certificate International program, scan the following QR Code:
