Internship Trial & Data (m/f/d)

Agriculture is all about balance. The balance that is crucial to everyone’s existence - also applies to our Agricultural Solutions division. We connect innovative thinking with practical action to find the right balance for success - for farmers, agriculture and future generations. With seeds and traits, crop protection and digital solutions, we help farmers produce food more efficiently, protect the land and meet the needs of society.

LOCATION
Köln, DE

COMPANY
BASF Digital Farming GmbH

WORKING AREA
IT / Information Management

REFERENCE CODE
ENS9739442_RWTH_1

RESPONSIBILITIES

Be part of our team for three to six months that shapes crop protection in a way that it will look like tomorrow and provide agronomic insights to foster a disruptive crop protection business model.

- You will plan, steer and run trial activities in selected european countries as well as work out trial results and ensure high quality end season data to improve xarvio products.
- You will communicate with trial operators and train them about xarvio products.
- Moreover, you will check data quality and ensure trial relevant activities right in time as well as work with statistical data and translate them into farmer benefits.
- Last but not least, you will participate at the global Trial Task Force Team and update the team members.
- For outstanding students there might be an opportunity to extend the collaboration as a working student.

QUALIFICATIONS

- enrolled in agricultural, horticulture or other similarly relevant studies
- basic skills in agricultural testing, design of data bases
- goal- and result-oriented way of working
- fluent English and German language skills

BENEFITS

From day one you will be part of the BASF family. You will get involved in challenging fields of activity and have the opportunity to work on exciting projects in an interdisciplinary environment. Depending on the location of the respective group company you will get to know BASF and participate in various workshops and guided tours. In this way you will make numerous interesting experiences and get a deep insight into the world’s leading chemical company.
