In addition, please complete the applicant’s questionnaire and the teaching portfolio that can be found under www.ukaachen.de/fuer-bewerber/stellenmarkt.html.

You can also send your application via email to dekanat@ukaachen.de. Please note, however, that communication via unencrypted e-mail poses a threat to confidentiality as it is potentially vulnerable to unauthorized access by third parties. For information on the collection of personal data pursuant to Articles 13 and 14 of the General Data Protection Regulation (GDPR), please visit www.rwth-aachen.de/gdpr-information.

The deadline for applications is June 17, 2022.

This position is also available as part-time employment per request. We welcome applications from all suitably qualified candidates regardless of gender. RWTH Aachen University is certified as a family-friendly university and offers a dual career program for partner hiring. We particularly welcome and encourage applications from women, disabled people and ethnic minority groups, recognizing they are underrepresented across RWTH Aachen University. The principles of fair and open competition apply and appointments will be made on merit.

RWTH Aachen University is one of Germany’s pre-eminent Universities of Excellence, which entails the highest quality in teaching and world-class research. RWTH addresses bold, scientific questions; it also assumes a profound responsibility toward society and transfers its knowledge into meaningful applications. RWTH strives for the convergence of knowledge, methods, and findings from its research fields and integrates in-depth disciplinary knowledge into interdisciplinary research consortia represented as profile areas. The university’s dynamic, creative, and international environment encompasses efficient research networks, institutionalized cooperations, and, most of all, the innovative RWTH Campus-Project which harbors one of the most extensive technology-oriented research landscapes in Europe.

Full Professor (W2) in Clinical Genomics
Faculty of Medicine/Uniklinik RWTH Aachen

We are seeking qualified applicants for teaching and research and medical care in the area of clinical human genetics at the Institute of Human Genetics (Chair: Prof. Dr. Ingo Kurth). The starting date is as soon as possible. We are looking for a person with many years of management experience in the field of clinical human genetics. Special expertise in the fields of syndromology and growth disorders, as well as neuromuscular and oncogenetic diseases is expected. The professorship is associated with the responsible organization of the clinical-genetic outpatient clinic and the human genetics consultation service for all departments of the University Hospital.

The special ability for interdisciplinary cooperation and collaboration in the structures of the Centre for Rare Diseases Aachen (ZSEA) and the Centre for Integrated Oncology (CIO) is required. The latter includes the further development of interdisciplinary oncological project groups in the CIO. The applicant should have a visible research profile in the field of clinical genetics and epigenetics, proven by relevant publications. The professorship should advance translational research on genetic alterations and their clinical manifestations and predispositions and promote precision medicine.

Interdisciplinary scientific co-operation with other departments and clinics of the Medical School, with the research areas of the RWTH Aachen University including SFB TRR 57, SFB TRR 219, SFB 1382, KFO 344, IRTG 2150, GRK 2375, PAK 961, CIO, JARA, IZK AACHEN, with the Institute of Biomedical Technologies (IBM'T) and with other technical disciplines are encouraged. In addition, an active commitment in the new medical student’s curriculum of the Medical Faculty (“Modellstudienang Medizin Aachen”), in the curriculum of dentistry and the master program “Biomedical Engineering” is expected.

An M.D. degree is required; additionally, Habilitation (post-doctoral lecturing qualification), an exemplary record of research achievement as an assistant / an associate / a junior professor or university researcher and/or an outstanding career outside academia are highly desirable. A specialist qualification in human genetics is also a prerequisite. Ability in and commitment to teaching are essential. The application should include supporting documents regarding success in teaching and a teaching portfolio. German is necessary as a teaching language.

According to a governmental resolution employment contracts will be based on partially fixed and variable pay agreements.
