Do you have a PhD, MBA or Master’s degree in mechanical engineering, industrial engineering, electrical engineering or a comparable subject and are now looking to launch your career? Then the Management Evolution Program is just the thing for you!

Trainee Management Evolution Program (m/w/d)

YOUR TASKS
- Going through three challenging projects in different divisions, departments and countries over the duration of 18 months
- Collaborating in exciting projects, which are individually tailored according to your interests and skills
- Gaining international experience through at least one project abroad
- Building up a company-wide network
- Developing your professional & personal skills through training, an individual development plan and a mentor
- Your starting date is flexible
- Choose from worldwide job options after the program
- Permanent contract

YOUR PROFILE
- Work experience or practical experience through challenging internships and work-study programs
- A stay abroad of at least six months
- Fluent English skills and preferably another language
- A very good degree in mechanical engineering, industrial engineering, electrical engineering or a comparable subject
- A team player with high flexibility and willingness to learn

WHAT WE OFFER
Through a blend of engineering excellence, sustainable development and social responsibility, our employees help to drive progress at more than 100 sites in 30 countries. We offer you an exciting role with plenty of variety in an international environment, as part of an attractive package that extends from flexible working hour models, via professional and personal development opportunities, all the way to sports and healthcare programs.
