Contact: Dekan der Fakultät für Architektur der RWTH Aachen, Univ.-Prof. Dr.-Ing. Frank Lohrberg, 52056 Aachen. E-Mail: dekan@dekanat.arch.rwth-aachen.de

Please note that communication via unencrypted email poses a threat to confidentiality as it is potentially vulnerable to unauthorized access by third parties. For information on the collection of personal data pursuant to Articles 13 and 14 of the General Data Protection Regulation (GDPR), please visit www.rwth-aachen.de/gdpr-information.

This position is also available on a part-time basis per request. We welcome applications from all suitably qualified candidates regardless of gender. RWTH Aachen University is certified as a family-friendly university and offers a dual career program for partner hiring. We particularly welcome and encourage applications from women, disabled people and ethnic minority groups, recognizing they are underrepresented across RWTH Aachen University. The principles of fair and open competition apply and appointments will be made on merit.

RWTH Aachen University is one of Germany’s pre-eminent Universities of Excellence, which entails the highest quality in teaching and world-class research. RWTH addresses bold, scientific questions; it also assumes a profound responsibility toward society and transfers its knowledge into meaningful applications. RWTH strives for the convergence of knowledge, methods, and findings from its research fields and integrates in-depth disciplinary knowledge into interdisciplinary research consortia represented as profile areas. The university’s dynamic, creative, and international environment encompasses efficient research networks, institutionalized cooperations, and, most of all, the innovative RWTH Campus-Project which harbors one of the most extensive technology-oriented research landscapes in Europe.

**Full Professor (W2) in Resource Responsible Architecture at the Faculty of Architecture**

We are inviting applications for the position of full professor in the area of resource responsible architecture, to be filled by October 1, 2024. The professorship addresses the resource dependency of architecture, researches resource-appropriate approaches and construction methods and imparts the corresponding knowledge in their teaching.

The professorship supervises students in basic and design teaching in the Bachelor’s degree programme in architecture as well as in the Master’s degree programme in architecture. Participation in the teaching of the Master’s programme in Urban Planning is possible. Scientific-analytical methods are taught that reveal and operationalise the resource reference of architecture. In design theory, the focus is on resource-efficient building methods and constructions.

In research, the professorship operates at the cutting edge of science and distinguishes itself with an individual focus, for example, material-related architecture such as timber or loam construction, life-cycle-oriented architecture or building in the existing fabric. It cooperates with professorships from other RWTH faculties, for example within the framework of the “Built and Lived Environment” growth area or the “Center for Circular Economy”. The professorship conducts transformation and transfer-oriented research and involves partners from business and administration.

The requirements include a doctoral degree and additional research experience, such as a habilitation (post-doctoral lecturing qualification) or equivalent achievements gained as a university researcher or professor or in a research position outside academia. Teaching ability and dedication are essential and the application should include proof of this. Fluent German is not required to start the position but the successful candidate will be expected to hold classes in German within the first 5 years.

Proof of outstanding architectural-artistic achievements may be considered as a condition of employment in accordance with Section 36 (2) of the NRW Higher Education Act of 12.07.2019.
